BRITMINDO GROUP

Professional Mining Service

MINE MANAGEMENT SERVICES

MINE MANAGEMENT SERVICES

Assisting mine owners and/or mining contractors to efficiently manage all facets of mine production from land clearing through to barge loading:

MINE OPERATION MANAGEMENT

Britmindo Jasa Utama has established management teams to maximize productivity and utilize available time to mine coal safely to the scheduled planning sequence. Britmindo Jasa Utama uses daily production meetings, tool box meetings, short interval controls and field check lists to ensure that production is monitored and controlled at all times in achieving production targets.

Britmindo Jasa Utama provides both long and short term mine plans and will ensure the proper implementation to meet coal sales.

QUALITY CONTROL MANAGEMENT

Britmindo Jasa Utama has established standard operating procedures (SOP's) for maximising the recovery of the coal reserves with minimum contamination and can provide an experienced team of mining geologists to assist any coal mine to improve its revenue potential.

COAL CHAIN MANAGEMENT

Britmindo Jasa Utama can provide experienced management to operate and maintain the coal process chain to ensure the uninterrupted delivery of coal to the correct specification required by coal buyers.

COMPANY INTRODUCTION

The Indonesian Coal Mining Industry continues to grow at a rapid pace. This growth has stretched resources within the industry to breaking point and has created the need for greater professionalism and quality of performance for coal mine development through to coal production.

Britmindo is an established mine services company that can provide the high standards of service that responsible corporate organizations with long term mining strategies demand and which are in keeping with the international status of the Indonesian Coal Mining Industry.

Britmindo provides a wide range of Technical Services covering Exploration, Mine Planning, JORC Resources and Reserves Assessments, Due Diligence, Mine Management and Operational Efficiencies for mine owners, contractors, investors and finance houses.

The Britmindo team includes well qualified and highly experienced geologists, engineers and productivity specialists who are committed to a dynamic view of the needs for these exciting challenges.

OUR EXPERTISE

The BRITMINDO team possesses experienced engineers and fixed plant specialists design, operations and maintenance led by:

STEPHEN NYE

Stephen has several years experience in coal mine project development and management in Indonesia and more recently with Britmindo developing green field open cut coal project sites and providing operational support for existing clients. Stephen has over 20 years experience in Indonesia and completed numerous due diligence site appraisal and efficiency reviews for existing mine operations and mining contractors. Stephen has undertaken Advanced Diploma courses in Civil Engineering, Land Survey & Marketing and is fluent in Bahasa Indonesia providing integrated support between clients and site based operations.

EKA BUDI SETIAWAN

Eka Budi has been working in the Indonesian Coal Mining industry for over 9 years and has significant experience in the management of operation and engineering teams including short and long term mine planning, drilling blasting and productivity evaluations of coal reserves for many companies. He is experienced in the use of most major mine planning and scheduling systems and undertaken mine design and project evaluations within Indonesia, Australia and UK.

Eka Budi graduated from University of National Development "Veteran", Yogyakarta, Indonesia and a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM).
